Sequim, WA 98382

Dear Mr. Ray:

This letter is in reference to your leaking Underground Storage Tank (UST) site at the Coulee Express, in Coulee Dam, WA. In order to achieve compliance with EPA's public notice requirements for corrective actions, 40 C.F.R. §280.67, the enclosed "Notice of Contamination" must be posted at your cleanup site. The "Notice of Contamination" must be posted at the most visible point where the public can read it and it must be properly maintained.

In reference to your request to cap the site, EPA is presently discussing this internally. As soon as a decision is made I will see that you are informed.

Please feel free to contact me if you have any questions at (206) 753-9543.

Sincerely,

Robert B. Cutler
UST Program Coordinator
